

# Friends and Family Survey Feedback - July 2019

My junior doctor gp was very helpful and and I was seen very quickly. The receptionist was also very kind and professional..

Kind, receptive, insightful doctor who listened and attended with sympathy and effectiveness.

All my concerns were addressed, and appointments and tests were scheduled to keep a close eye on my health.

Reception ladies are very friendly, doctors and nurses are so helpful, appointments all have been in time.

Doctors are very good and knowledgeable, but the reception staff need a lot more training to deal with patients

Staff very professional and helpful but very long extra waiting time in the surgery

Everyone is so helpful- it is the epitome of a well run organisation/medical practice.

Pleasant, pro-active, profound and professional - the 4 P's.doctor
